## Education

#### Kalamazoo College

Mathematics and Computer Science double major

**Recognitions:** Honors in Mathematics (*summa cum laude*), Heyl Full Tuition Scholarship, Phi Beta Kappa **Relevant Projects:** 

Icosahedral Virus Transitions (Senior Thesis)

- Developed a multi-threaded, high-performance data analysis algorithm in Python to understand how certain viruses transform over time.
- Created comprehensive technical documentation for research mentors to continue research.
- Presented research findings to the Kalamazoo College Board of Trustees.
- Nominated speaker at the 2023 West Michigan Regional Undergraduate Science Research Conference with over 150 in attendance.

## HornetHQ 2.0 Prototype

- Developed React-based prototype for course selection system with simulated SQL back-end.
- Collaborated in an Agile team of 12+ using RESTful APIs and Git workflow.

#### **Relevant Coursework:**

Advanced Software Development (*Agile development, software testing, SDLC principles*) Data Science, Machine Learning (*Python, scikit-learn, data analysis, AI models*)

#### Budapest Semesters In Mathematics, Hungarian Study Abroad

• Advanced mathematics program that provides an opportunity for North American students to learn mathematics in the Hungarian tradition.

## Experience

Webmaster Assistant - North American Guild of Change Ringers (Volunteer) 2025 - Present

- Manage and enhance the organization's website (<u>www.nagcr.org</u>) using Webflow, focusing on usability, accessibility, and mobile responsiveness.
- Collaborate with leadership to publish timely updates, event announcements, and member communications.

## Teaching Assistant - Kalamazoo College Mathematics Department

- Created learning environments that encourage student's critical thinking.
- Conducted weekly independent office hours to guide students towards optimal solutions.
- Delivered accurate and concise feedback to over 20 students, facilitating significant improvements in mathematical proof writing.

#### Mathematics Departmental Student Advisor - Kalamazoo College

- Served as an academic role model by representing the mathematics department in a faculty-appointed position.
- Navigated College systems to provide helpful guidance to peers on course planning, class registration, major exploration, and academic success.

## Skills

*Computer Languages:* Java, C++, Python, HTML, CSS, JavaScript, React, Bash, SQL Software Development: SDLC, Agile, Git/GitHub, Test-Driven Development (TDD) *Operating Systems & Tools:* Linux, MacOS, Windows, LaTeX, Microsoft Office, Google Suite Data Science & Analytics: scikit-learn, Machine Learning, Data Visualization, R *Computer Hardware:* PC Building, Computer Networks

## **Community Involvement**

## Freelance Percussionist at Local Theatres

• Recent performances include *The Addams Family* at the Barn Theatre and *Little Shop of Horrors* at the Festival Playhouse (Kalamazoo College).

#### Percussion Instructor at Portage Northern High School

• Facilitated a learning environment for over 30 students at a professional level.

## North American Guild of Change Ringers Member

Jeff Smith Young Ringer Award 2024

Bachelor of Arts, 2024 GPA: 3.988
